

LokDots is a pressure sensitive adhesive for the installation of EcoWorx carpet tile. This non-toxic and odorless system provides an alternative to wet adhesive, virtually eliminating the issue of Volatile Organic Compounds (VOCs), and providing ease and versatility of installation.

APPLICATION

LokDots is applied via a durable, lightweight handheld applicator; its triggerless design is ergonomically safe and intended for repetitive use. This intuitive system allows for flexible installation in regard to perimeter and interior cutting. Floor preparation is limited to clearing dust and debris.

A SIMPLE SOLUTION FOR EVEN THE MOST COMPLICATED INSTALLATIONS:

- efficient installation, increasing productivity and reducing costs
- durable applicator requires no maintenance and little training
- product can be installed at 12 pH, up to 10 pounds and 95% RH; save on remediation in high moisture applications
- ideal for use in occupied space, system eliminates the mess, curing time and odors of wet adhesives allowing immediate occupancy

LokDots vs. Glue

97% weight difference

A 35 POUND BUCKET OF ADHESIVE OR 1.1 POUNDS OF LOKDOTS?

Both install the same amount of carpet. Choosing LokDots reduces your shipping costs and increases shipping efficiency.

INSTALLATION SOLUTION FOR HIGH MOISTURE ENVIRONMENTS

“Modular installation using LokDots is very easy and straight forward — not only for the experienced installers but for the end user as well. Our installers were able to maintain production expectations using the new LokDots system.

The Community Services Building of Linn County was in a stalemate for more than a month and a half, due to high slab moisture and pH. Our Shaw Contract Group sales representative presented LokDots as a solution, allowing us to catch up to the schedule of the project and complete it on time.”

Chad R. French
Project Manager
Appleby & Horn Tile Co.

PROVEN PERFORMANCE

- LokDots eliminates the mess, curing time and odors of wet adhesives allowing immediate occupancy without disruption
- install LokDots over concrete, VCT, VAT, cutback, raised access floors, pressure sensitive and multipurpose adhesive, wood
- more than 70,000 yards installed in education, healthcare, corporate and government environments
- LokDots sticks to carpet backing during demolition; ideal solution for tenant improvement
- using LokDots represents a 97% reduction in installation materials compared to traditional wet adhesive

product specifications

Style Number:	adhesive: 00LDR	applicator: 00LDA
Description:	pressure sensitive VOC-free carpet tile installation system	
Packaging:	sleeve: (8 rolls)	250 yards
	case: (96 rolls)	3,000 yards
Moisture Level:	up to 10 pounds and 95% RH in subfloor	
Alkalinity:	up to 12 pH in subfloor	
Approved subfloors:	concrete, VCT, VAT, terrazzo, raised access floors, wood, cutback, pressure sensitive and multi-purpose adhesive	
Floor Prep:	level and clean, no use of sealers or primers
